TERMS AND CONDITIONS OF SALE

Prices. 5 and 50 of same variety and size at 10 and 100 rates, respectively.

Specimen Stock selected or marked by our customers in the nursery will be charged for according to its value, and higher than listed prices.

Terms of Payment. Cash with order from unknown customer or those who prefer to earn discount. When cash is sent with the order or paid on delivery, we will allow a 5% discount for cash. There are no exceptions to this. If remittance is by Post Office Money Order, it should be made payable to us at Mobile, Ala.

For all charge accounts our terms are 30 days net. 6% interest will be charged after 30 days, unless arrangements are made prior to sale. All boxing or crating of all plants with the exception of bareroot or lining-out stock will be charged for at cost. New accounts will be opened only upon receipt of trade references, allowing time for investigation.

Transportation. Please state whether you want your shipments by Parcel Post, Express, or Motor Freight. If no instructions are given, we will use our best judgment in selecting best method of shipment. We make no charge for delivery to railroad station, but our responsibility ceases when goods are turned over to carrier, and risk and cost of transportation belong to purchaser.

Claim. All claims must be made upon receipt of stock. We will be glad to rectify any mistake made by us, but we accept no responsibility for cold damage and other damage that might occur after delivery, and the liability will at no time be more than the purchase price.

Condition of Sale. We accept all orders on condition that they shall be void should injury beyond our control befall the stock, and subject to all Government regulations affecting labor, materials, and transportation.

Prices in this list cancel all previous quotations
and are subject to change without notice

KURUME AZALEAS

BARBARA ALLEN. Mauve-pink. Seedling of Hinodegiri.

BRIDESMAID. Big salmon-pink flowers borne in large clusters. Very good grower.

CHRISTMAS CHEER. Compact grower with small shiny leaves. The flowers of deepest crimson are small but very attractive. One of the best varieties.

CORAL BELLS Compact grower with small, round, glossy leaves. The dainty, bell-shaped, pink flowers are not large but it is a very profuse bloomer and one of the most popular varieties with florists.

HAHN'S RED. A fine new late variety producing bright red, single flowers.

HEXE (Firefly). Slow, compact grower with showy, deep scarlet, hose-in-hose flowers.

HEXE DE LA SAFFALERE. Improved type of Hexe. Large, crimson-red, hose-in-hose. Very compact; good foliage

HIAWATHA. Hose-in-hose; crimson-carmine. Dwarf and compact. Beautiful new addition to our list. Very late.

HINODEGIRI. Slow, compact grower, but its fiery red flowers will literally smother the entire plant, even when they are very small, making it one of the most desirable pot-plants.

HINO-CRIMSON. Similar to Hinodegiri. Very fast grower. Brilliant scarlet flowers. Hardy.

PEACH BLOW. One of the fastest-growing Kurumes. Medium-sized, single flowers of a delicate peach shade.

PINK PEARL. Large, most beautiful pink blooms, shaded lighter toward center.

SALMON QUEEN. Large, single, salmon-pink flowers produced in great profusion in midseason. One of the most attractive Kurumes.

SNOW. Good-sized, hose-in-hose flowers of purest white among beautiful glossy leaves. Liked by all.

SNOW #125. New hybrid similar to Snow. Blooms about three weeks later.

PERICAT AZALEAS

The Pericat group of Azaleas is relatively new to this section of the country, but we believe they will be extensively propagated and marketed in the future, for they have proved to be very satisfactory both for landscape work and for pot plants. These Azaleas are about as hardy as the Kurume varieties, and it has been found that they will grow and thrive in some sections, such as the southern-most part of Florida, where the Kurumes do not seem to do very well.

ALASKA. Large white flowers. One of the best for forcing.

GARDENIA SUPREME. Flowers white, sometimes with blush in center. The formation of the bloom is like a small gardenia. Good foliage and a vigorous grower.

MADAM PERICAT. Hose-in-hose, light pink flower. Late bloomer and a fast grower; very showy.

MRS. FISHER. Light pink, hose-in-hose. Late bloomer.

PINK PERICAT SPORT. Identical to Madam Pericat, except that flowers are a soft, deep rose color.

SWEETHEART SUPREME. The medium-sized, blush-pink, hose-in-hose flowers resemble a Sweetheart rose. An excellent grower of compact habit, with dark green foliage.

TWENTY GRAND. A good red Azalea. Late.

Azalea Lath-house

HARDY JAPANESE AZALEAS

HARDY FIREFLY. Compact-growing, very hardy Azalea, with good-sized single flowers of most brilliant fiery red. One of the very best.

JUDD. A vigorous grower with large, hose-in-hose orange-colored flowers. Hardy. Midseason to late.

KAEMPFERI. This Evergreen Azalea will lose its leaves farther north, where it can stand the winters of Boston without any protection, and does splendidly in the Lower South, making large plants. The big, single, rose-pink flowers are borne profusely rather late in season.

LILACINA (Akebono, meaning "dawn"). Delicate lilac shade of orchid—the color of the eastern sky at dawn. Strong grower with large leaves.

MACRANTHA. Compact grower with roundish leaves and single, medium-sized, pink flowers late in season. Very hardy. Here in Mobile this variety usually blooms in May and June, thus extending the Azalea season

MACRANTHA, Orange-Red. Similar to above, with narrow leaves and orange-red flowers. Very good. Blooms late, at same time as the pink Macrantha.

MACRANTHA, Double-flowering. One of the above type, with double pink flowers of good size. Late blooming; very hardy. This group of Macranthas is becoming more popular every year.

MAGNIFICA. Tall and fast growing. Rose flowers. Hardy. Semi-deciduous.

MAXWELLI. Leaves and flowers are as large as most of the Indicas and the carmine red, single flowers are big and very attractive.

SHERWOODI. Beautiful orchid color. Hardy, profuse bloomer and a strong grower.

Salmon Queen

Snow

AZALEA INDICA

BRILLIANT. A good grower with small, dark green leaves. Deep watermelon color, being intermediate between Pride of Mobile and Pride of Dorking. Very good variety.

COCCINEA MAJOR. Brilliant orange-red. A little taller grower than Prince of Orange.

ELEGANS. Fast and rather upright grower, similar to Formosa, with light-colored pink flowers early in season.

FIELDER'S WHITE. Large, pure white flowers early in season. A strong grower, free blooming, and one of the best whites.

FORMOSA. Very fast grower with large dark leaves and big purplish pink flowers which have less purple than Phoenicia.

GEORGE FRANC. Early bloomer with extra-large salmon-pink flowers having deep red throats. Very showy.

GEORGE LINDLEY TABER. Soft lavender-pink, faintly streaked darker pink and mottled cerise. A rapid grower and resistant to cold. Midseason.

INDICA ALBA. Rather upright grower, with dull-colored, hairy leaves and pure white flowers in midseason. Very hardy.

IVERYANA. Similar to Criterion, but has pink stripes on pure white instead of the pink ground of that variety.

JUDGE SOLOMON. A sport of Formosa, having same foliage and habit of growth, but the blooms are almost identical to Pride of Mobile in color.

MME. DOMINIQUE. One of the largest Indicas similar in color to Criterion, but of taller growth. Very compact and blooms almost as late as Macrantha. Exceptionally hardy.

MRS. G. G. GERBING. A fast-growing white Indica Azalea, with foliage and habit of growth similar to George L. Taber.

PRESIDENT CLAY. Good grower with orange-red flowers in midseason.

PRIDE OF DORKING. One of the deepest reds of the entire group. Blooms late in the season and, while not very hardy, is yet one of the best.

PRIDE OF MOBILE. The best-selling and most popular of all the Indicas. A profuse bloomer with deep watermelon-pink flowers.

Kämpferi Azaleas

AZALEA INDICA, continued

PRINCE OF ORANGE. Spreading grower with deep orange-red flowers a little after midseason. Very nice.

SALMON (Lawsal). Known locally as "Daphne Salmon." Midseason bloomer with pleasing salmon-colored medium-sized flowers. Very hardy.

SOUTHERN CHARM. Apparently the same as Judge Solomon, but we are propagating and keeping these two varieties separate until tested further.

VIOLACEA RUBRA. Beautiful shade of wine-red color with dark green leaves.

VITTATA FORTUNEI. Fast, upright grower, with pale-colored leaves. White and lavender variegated and light lavender flowers intermixed. Starts blooming in fall and continues all winter and spring.

Prices of Indica Azaleas:	100

5% Discount For Cash

Our 4 to 6-inch bed-grown Kurume, Pericat and 6 to 8-inch bed-grown Indica Azaleas are recommended and sold to nurserymen and florists only for the purpose of lining out and growing on into larger sizes. They do not have flower-buds and are of no value for immediate effect.

We grow and sell thousands upon thousands of these small plants every year, and, due to our facilities for quantity production, customers find it cheaper and more satisfactory to purchase from us than to maintain a propagating department for their own needs.

**4 to 6-in. and 6 to 8-in. bed-grown Azaleas
shown with 3-in. pot**

Specimen Camellias in Field

CAMELLIA JAPONICA

STANDARD VARIETIES

These varieties have been selected because of unusual merit and proved reliability under practically all conditions where Camellias are grown. Generally recognized by authorities as being the most outstanding and satisfactory of all the standard sorts.

BRILLIANT. Local name. An excellent variety. Large, very double, bright red. Compact grower with dark green foliage.

CHANDLERI ELEGANS. One of the largest peony-flowering Camellias. Cherry-red, with white variegations. Some are thick peony flowers with 500 petals, while others are loose peony form with yellow stamens.

DEBUTANTE (Sara C. Hastie). Delicate shade of solid pink; large peony form. A free bloomer and vigorous, upright grower. One of the best for cut-flowers.

ELIZABETH. Very double, white blooms with petals crinkled at end and, once in a great while, pure pink flowers of same form will appear. Leaves are very dark, thick, green. Strong grower. One of the best.

FANNY BOLIS. Very large, semi-double, red flowers blotched white.

GLOIRE DE NANTES (Leana Superba). Large, semi-double, cerise bloom, with center petals often twisting. Extremely large, dark green leaves, and bold large flowers make this one of the most attractive on bush.

HERME. Very large, loose peony-form blooms of elegant shape. Pink and red variegated with white margin.

JARVIS RED. Deep blood-red, semi-double flowers with golden stamens. Very attractive among dark green foliage. One of the most popular kinds. Very hardy.

KELLINGTONIA. Flowers orange-red, with stripes or blotches of white, open peony type. Always blooms heavily and has extra-good foliage.

KUMASAKA. The flowers are large peony form, deep pink in color. An excellent grower and very free blooming. Late.

LADY VANSITTART. Large, semi-double, attractive deep pink flowers. Leaves long, narrow-pointed and slightly crinkled. Upright grower and free bloomer.

MONARCH. The deep pink flowers are of enormous size, having many clusters of stamens and petals inside of larger outer petals, making a single flower equal to a bouquet. Beautiful foliage and compact grower.

STANDARD VARIETIES, continued

OTOME. Similar to Pink Perfection but much larger flowers, with each end of petals fading to lighter shade of shell-pink.

PINK PERFECTION. Very double, clear shell-pink flowers of dainty form, liked by many. The plants start blooming when very young, coming early in the season and continuing in profusion for a long time.

PRINCE EUGENE NAPOLEON (Pope Pius IX). Very double, scarlet flowers of good size from early to mid-season. Good, compact grower.

PROF. C. S. SARGENT. Very thick, peony-form, solid crimson blooms of medium size.

RAINY SUN. Twisted, rather narrow leaves. Flowers large, semi-double and deep crimson in color.

SARAH FROST. This well-known favorite is a good compact grower and a profuse bloomer. The flowers are full double, of medium size, rose-red in color, and produced midseason to late. Very dependable.

T. K. VARIEGATED. Semi-double; light pink, with darker pink margin, somewhat like Criterion azalea; elegant form and coloring, with large cluster of yellow stamens. Small leaves. Compact, but fast grower. A dependable outdoor variety.

TRICOLOR. Semi-double flowers of almost pure white to red and intermediate colors on same bush.

RARE CAMELLIAS

We offer a carefully selected list of choice and outstanding varieties of rare *Camellia japonica* in a wide range of colors and sizes. Many of them have already made Camellia history and others will do likewise as they become better known. They are offered in groups and priced according to individual merit.

C. M. HOVEY (Mathotiana Rubra Variant). In habit of growth, and shape and form of flowers, it is very much like Purple Emperor, but the beautiful, double, large red flowers are mottled white.

DAIKAGURA. Probably the earliest bloomer of all *Camellia japonicas*. In the Mobile section it is nearly always in bloom in September and often is showing color in August. Flowers large, thick peony type, deep rose color with large white blotches.

EMPEROR OF RUSSIA. Bushy and compact. The flowers are very large, brilliant scarlet and of peony form.

GIGANTEA. Very large leaves and spreading branches. The red and white flowers are peony form. Good size.

RARE CAMELLIAS, continued

HAKU-RAKUTEN. A very beautiful and out-of-the-ordinary Camellia. The flowers are large, semi-double to loose peony form, and pure white in color. A vigorous and symmetrical grower with smooth, attractive foliage.

PURPLE EMPEROR (Mathotiana Rubra; Purple Dawn, etc.) Extremely large flowers of rose form. Deep red but as the flower gets older, outer edge turns purple.

ROSEA SUPERBA VARIEGATED (Margaret Sandusky). A lovely variegated form of Rosea Superba. Very large, full double, deep pink flowers with numerous small white spots or blotches. A vigorous grower, similar to Purple Emperor in habit and foliage.

ROSE DAWN. A splendid introduction by one of our local nurseries at Mobile. The large, rose-pink flowers are very beautiful and very double, similar in form and shape to Alba Plena. It is a vigorous grower, with serrated foliage, and is free blooming even when quite young.

RARE CAMELLIAS, GROUP 2

CALIFORNIA KUMASAKA. A new sport of Kumasaka, characterized by much faster growth, larger flowers and very superior variegation. Midseason. Hardy.

FRED SANDER. Flowers single, of medium size, crinkled petals, sometimes fimbriated. Otherwise, it resembles tricolor in both color and formation.

KUMASAKA, VARIEGATED. Large, peony-form blooms of deep pink but with white spots. Very hardy.

LADY CLARE (Empress; Grandiflora Rosea). Immense, single pink flowers. Probably the largest of all Camellias.

MONJISU (California Donckelari). Semi-double, medium-sized flowers of bright carmine with a satin-like sheen. Foliage small, dark green.

MRS. CHARLES COBB. Large, semi-double, dark red (almost black), with rich golden stamens intermixed in petals. Fast, upright, symmetrical grower. Midseason.

PINK STAR. Semi-double to peony form. Pleasing rose-pink, large round petals. Growth habit compact and upright. Attractive dark foliage. Midseason. Hardy.

PURITY. Very double, pure white, star-shaped flowers. One of the best of all whites. Upright grower.

VICTOR EMMANUEL. Flowers very large, deep red, peony form, and of indescribable beauty. Late.

CAMELLIA SASANQUA

One of the newer and finest of all the broad-leaved evergreens. Similar to *Camellia japonica*, but looser and faster growing. Very profuse bloomers, the flowers commencing to open the latter part of September and continuing on through November—a time when very few flowers can be had.

Sasanquas are very hardy and can be grown without protection in the latitude of Memphis, Tenn., Birmingham, Ala., Atlanta, Ga., Charlotte, N. C., and even much farther north along the Atlantic seaboard. They are extremely satisfactory in landscape work, as individual specimens, in foundation plantings, and for hedges, and their popularity is only just beginning.

CLEOPATRA. Large, beautiful cherry-red flowers, often double, and having crinkled petals. Foliage thick, dark and glossy. A vigorous and compact grower.

MINE-NO-YUKI (Snow on the Mountain). The large, double, white flowers resemble a carnation and are borne in such profusion as to literally cover the entire plant.

NEGISHEKO. Flowers very large, single, deep pink and very showy. Strong, upright grower with dark glossy foliage.

PAPAVER (Rosea Papaver). Very light pink, single, bell-shaped flower, with 8 petals. Extremely early bloomer.

PINK SNOW. A beautiful pink sport of Mine-no-Yuki. Full double. Extremely fine grower. One of the best of the new Sasanquas.

ROSEA. A graceful and upright grower with very large single flowers of brilliant pink.

SETSUGEKKA. A variety of great beauty and merit. The large, semi-double flowers are pure white, with just a touch of pink at the ends of the slightly ruffled petals. The plant is erect and compact in habit, with dark, handsome foliage. Very valuable.

SHISHIFUKUJIN. Very strong, upright grower with fine foliage. Very large, soft pink bloom, sometimes double. An extremely fine landscape plant.

TEXAS STAR. A fine variety. Very upright and columnar like Italian Cypress. Good size, light mauve-pink flowers.

SASANQUA SPARKLING BURGUNDY

All-America Camellia Selection, 1960
(Plant Patent No. 1539)

This upright, bushy, fast-growing new sensation sets a heavy crop of buds even on young plants, thus prolonging its blooming period at least a month longer than any other Sasanqua. Grows well in shade or full sun.

Though it is a profuse bloomer, each flower is unusually large for a Sasanqua, measuring 3 to 4 inches. Fluffy, semi-double to peony-form flowers with upright petaloids in the center. An ideal plant for either individual or mass planting.

This strikingly beautiful ruby-rose Sasanqua has all the good habits that will be wanted by all who see or hear about it.

Setsugekka

KURUME AZALEAS

Everyone in the Lower South is thoroughly familiar with the magnificent beauty of Azaleas in full bloom, but many growers in other sections have not realized that there are so many hardy varieties that can be successfully grown outdoors in their own states. New and hardy types of Azaleas are being developed each year, and soon large plantings will be in evidence in many parts of the country not heretofore considered suited for these plants.

AZALEA, PRIDE OF MOBILE

The Azalea Trail,

Several American cities have the distinction of being identified with a particular flower that is widely planted and loved in the district. But perhaps no city is more famous for a certain plant than is Mobile for its Azaleas.

Azaleas were first brought to Mobile by an early French settler but it was not until 1929 that the Mobile Junior Chamber of Commerce organized the Azalea Trail and the citizens began a planting program that has brought most colorful results. Now each year thousands of visitors come to see the magnificent display. The Trail begins in the heart

IN MEMORIAL PARK, MOBILE, ALABAMA

Mobile, Alabama

of the city under spreading moss covered oaks and sweeps westward along 17 miles of Mobile streets. A high point of the Trail is the breath-taking beauty of the famous Bellingrath Gardens, 20 miles south of the city. Here giant oaks form a setting for acres of Azaleas and Camellias, making this estate truly "The Charm Spot of the Deep South."

The Azalea Trail is conducted as a non-profit civic enterprise and everyone interested is invited to write to Mobile's Azalea Trail, Inc., P.O. Box 172, Mobile 8, Ala., for dates when bloom is expected to be at its height.

MAGNOLIA *grandiflora*

LAGERSTROEMIA • Crape-Myrtle

GARDENIA *florida*

ORIENTAL MAGNOLIAS

Some of the most beautiful flowering trees in the world belong to this group of deciduous Magnolias. Most of them are hardy in nearly all parts of the United States, and planting of these beautiful trees should be encouraged by nurserymen.

ALBA SUPERBA. Similar to *Soulangeana* with almost white flowers. Rounder leaves and a more upright grower.

PINK ALBA SUPERBA. Identical to the above in form and growth habit, but with deep pink flowers.

ALEXANDRINA. Flowers large, dark purplish pink outside and white inside. Very showy and desirable.

LENNEI. Leaves are much larger than *Soulangeana*. Cup-shaped, larger, bold flowers, which open later than other *Soulangeanas*, deep reddish purple outside and white inside. Very choice.

LOMBARDY ROSE. Large flowers, lower surface of petals colored dark rose, upper surface white. A seedling of *Lennei* but faster growing and freer blooming.

RUSTICA RUBRA. Large, cup-shaped, dark reddish purple flowers, similar to *Lennei*, and with handsome seed-pods more than 6 inches long. It is a vigorous grower and especially desirable where a tall spreading Magnolia is wanted. Blooms later than *Soulangeana*.

SOULANGEANA. Small tree with large, 9-petal, pinkish flowers before the leaves in the spring. One of the most beautiful flowering trees.

LILLIPUTIAN (Small-flowering Soulangeana). A miniature *Soulangeana* in growth habit and bloom. Very fine for the small home where space is limited and a small flowering tree is needed.

LILIFLORA (*M. obovata*). Tulip-shaped, large, purplish pink flowers before leaves appear. Many stems from ground and makes a large bush.

NIGRA. Blooms later than *Soulangeana* and is darker in color.

GRACE McDADE (Large White). One of our seedlings. The flowers are very large, almost double the size of *Soulangeana*, and are white with pink at base of petals. Fast grower. One of the finest of all Magnolias.

	Each	10	100
2 yr., C.T.....	\$0 60	\$5 50	\$50 00
2 to 3 ft., B&B.....	3 00		
3 to 4 ft., B&B.....	4 50		
4 to 5 ft., B&B.....	6 00		

STELLATA. Star Magnolia. A dwarf grower, seldom reaching a height of more than 10 feet, and producing numerous delicate pinkish white waterlily-like flowers.

	Each
12 to 18 in., C.T.....	\$0 40
18 to 24 in., bushy, B&B.....	2 50
2 to 3 ft., bushy, B&B.....	3 00

CONSPICUA. One of the finest of all Magnolias. Rather slow grower with medium-sized flowers of rich old ivory color. A "must" for collectors.

	Each
1 to 2 ft., bare-root.....	Sold Out \$1 50

BROAD-LEAVED EVERGREENS

Abbreviations: S., Seedling; C., Cutting; T., Transplanted; B&B, Balled and Burlapped; B.R., Bare-Root.

ABELIA grandiflora	Each	10	100
12 to 18 in., B.R.....		\$3 00	\$25 00
18 to 24 in., bushy, B.R.....		4 00	35 00
18 to 24 in., B&B.....	\$0 80		
2 to 3 ft., B&B.....	1 00		

ANISE TREE (*Illicium anisatum*). A handsome, broad-leaved evergreen shrub or small tree of narrow, upright habit, reaching a height of 10 to 12 feet. Hardy.

	Each
12 to 18 in., C.T.....	\$0 15
2 to 3 ft., B&B.....	1 75
3 to 4 ft., B&B.....	2 50
4 to 5 ft., B&B.....	3 50

BUXUS Harlandi. A beautiful new slow-growing compact Box, with long narrow light green leaves. Very desirable.

B. japonica. Fairly fast-growing Box with light-colored roundish leaves. Does well in full sun.

B. sempervirens. Slow-growing, compact Box with deep green, pointed leaves. There are several strains of this variety, but we offer the most compact-growing kind.

Prices of Buxus:	Each	10	100
4 to 6 in., C.T.....		\$1 50	\$12 50
6 to 8 in., C.T.....		1 75	15 00
8 to 12 in., B&B.....	\$1 00		
12 to 15 in., B&B.....	1 25		

CLEYERA japonica. An excellent, compact-growing, medium-sized evergreen, with thick, glossy leaves which turn red before falling. Creamy white flowers in late spring. Our plants are cuttings grown from selected specimens of exceptional merit.

	Each	10	100
6 to 8 in., C.T.....		\$1 50	\$12 50
8 to 12 in., C.T.....		1 75	15 00
12 to 18 in., C.T.....		2 00	17 50
18 to 24 in., B&B.....	\$1 75		
2 to 3 ft., B&B.....	2 40		
3 to 4 ft., B&B.....	3 50		

ELÆAGNUS pungens. Transplants easily, doing well in either sun or shade.

E. pungens Fruitlandi. Fast-growing ELÆAGNUS with large green leaves.

Prices of above two Elæagnus:

	Each	10	100
6 to 8 in., C.T.....		\$1 75	\$15 00
8 to 12 in., C.T.....		2 00	17 50
12 to 18 in., C.T.....		2 25	20 00

2 to 3 ft., B&B.....	1 50		
3 to 4 ft., B&B.....	2 50		

FEIJOA Sellowiana. Pineapple Guava. Hardy broad-leaved evergreen. Beautiful flowers, very similar to strawberry bloom but much larger.

	Each
18 to 24 in., B&B.....	\$1 10
2 to 3 ft., B&B.....	1 50
3 to 4 ft., B&B.....	2 00

BROAD-LEAVED EVERGREENS, continued

GARDENIA florida. Cape Jasmine. We offer excellent values in this popular flowering plant.

G. Fortunei. Everblooming variety that is hardy. Has dark shiny green foliage.

G., Mystery. Flowers are larger and more attractive than the ordinary *Gardenia florida*, and an excellent grower.

Prices of above three Gardenias:	Each	10	100
6 to 8 in., C.T.....		\$1 00	\$8 50
8 to 12 in., C.T.....		1 25	10 00
12 to 18 in., C.T.....		1 50	12 50
18 to 24 in., B&B.....	\$1 00		
2 to 3 ft., B&B.....	1 40		
3 to 4 ft., B&B.....	1 80		

G. radicans. Dwarf-growing Cape Jasmine with small leaves and waxy white, fragrant flowers.

	Each	10	100
4 to 6 in., C.T.....		\$1 10	\$10 00
6 to 8 in., C.T.....		1 50	12 50
10 to 12 in., B&B.....	\$0 75		
12 to 18 in., B&B.....	1 00		
18 to 24 in., B&B.....	1 60		

G. Veitchi. Winter-blooming Gardenia used extensively by florists. Our strain blooms almost continually. Can stand but a few degrees of frost.

	10	100
6 to 8 in., 2-in. pots.....	\$2 25	\$20 00
8 to 10 in., 3-in. pots.....	2 50	22 50

ILEX cornuta Burfordi.

I. cornuta femina. Showiest Holly in the South and perfectly at home from the Gulf Coast to New Jersey. Cuttings from bearing plants with highly glossy leaves. Some plants have regular Holly-shaped leaves with several spines, but some have entire shiny leaves with only one spine, and are known by some nurserymen as "Burfordi." We can offer both kinds at same price.

	Each	10	100
2½-in. pots, 1 yr.....		\$1 50	\$12 50
2½-in. pots, 2 yr.....		1 75	15 00

3 to 4 ft., B&B, heavy.....	3 50		

Ilex cornuta femina

Ilex cornuta Burfordi

BROAD-LEAVED EVERGREENS, continued

ILEX Biloxi. Semi-dwarf Ilex, similar in growth habit to Rotundifolia, but much softer in appearance.

	Each	10	100
6 to 8 in., C.T.....		\$1 50	\$12 50
8 to 12 in., C.T.....		1 75	15 00
12 to 15 in., B&B.....	\$1 50		
15 to 18 in., B&B.....	1 75		

I. crenata bullata. An excellent variety with leaves of high gloss and convex in center. Slow and dwarf and ideally suited for rock-gardens.

	Each	10	100
6 to 8 in., C.T.....		\$1 50	\$12 50
8 to 12 in., C.T.....		1 75	15 00
12 to 15 in., B&B.....	\$1 50		
15 to 18 in., B&B.....	1 75		

I. crenata microphylla. Very small-leaved type of Crenata; used extensively.

	Each	10	100
4 to 6 in., C.T.....		\$1 50	\$12 50
6 to 8 in., C.T.....		1 75	15 00
8 to 12 in., C.T.....		2 25	20 00
12 to 15 in., B&B.....	\$1 50		
15 to 18 in., B&B.....	1 75		

I. crenata rotundifolia. Very hardy Holly with black berries and round, boxwood-like leaves. Very desirable.

	Each	10	100
6 to 8 in., C.T.....		\$1 25	\$10 00
8 to 12 in., C.T.....		1 50	12 50
12 to 18 in., C.T.....		2 00	17 50
12 to 15 in., B&B.....	\$1 00		
15 to 18 in., B&B.....	1 25		
18 to 24 in., B&B.....	1 60		
2 to 3 ft., B&B.....	2 00		

I. vomitoria. A native evergreen Holly with small foliage, compact bushy head and bright red berries produced in great profusion. Shears well.

	Each	10	100
6 to 8 in., C.T.....		\$1 50	\$12 50
8 to 12 in., C.T.....		1 75	15 00

I. opaca, East Palatka. Fast grower; foliage light green, almost smooth. Produces immense quantities of bright red berries.

I. fosteri. A fine new Holly with narrow serrated leaves. The berries are of good size, bright red, and produced in abundance.

I. opaca Howardi. Foliage very dark and glossy. Berries red and attractive.

I. Savannah. A fast grower, columnar and upright in habit. Very handsome and fruitful, with red fruit well displayed.

Prices of above four Ilex:	Each	10	100
6 to 8 in., C.T.....		\$1 75	\$15 00
8 to 12 in., C.T.....		2 25	20 00
18 to 24 in., B&B.....	\$1 75		
2 to 3 ft., B&B.....	2 50		

Ilex crenata bullata
Ilex crenata rotundifolia

BROAD-LEAVED EVERGREENS, continued

JASMINUM primulinum. Primrose Jasmine. Very graceful, fast-growing, semi-erect evergreen with yellow flowers.

	Each	10	100
6 to 8 in., C.T.....		\$1 00	\$8 50
8 to 12 in., C.T.....		1 25	10 00
12 to 18 in., C.T.....		1 50	12 50
18 to 24 in., B&B.....	\$1 00		
2 to 3 ft., B&B.....	1 40		
3 to 4 ft., B&B.....	1 80		

LIGUSTRUM coriaceum. Very dwarf Ligustrum with crinkled, thick dark foliage making it suitable for rock-gardens.

	Each	10	100
6 to 8 in., C.T.....		\$15 00	
8 to 12 in., C.T.....		17 50	

L. ciliatum variegatum. Spreading shrub with round, variegated leaves.

L. erecta. A very compact, upright Ligustrum, similar to Pyramidalis but with several times as much foliage.

L. lucidum compactum. The well-known Wax Privet that has received great attention by the public in recent years, but its use can still be increased. Our Wax Privets have exceptionally good color and texture of foliage and compactness of bush.

L. lucidum pyramidalis. Upright Privet. There are several types of Pyramidal form of Wax Privet, but ours has dark green foliage of roundish form; very thick and while decidedly upright in form; yet quite compact.

L. lucidum repandum. Crinkle Privet. Rather upright and spreading, with waxy, crinkled, narrow leaves.

Prices of the above five Ligustrums:

	Each	10	100
4 to 6 in., strong rooted C.....		\$0 70	\$6 00
6 to 8 in., C.T.....		1 25	10 00
8 to 12 in., C.T.....		1 50	12 50
12 to 18 in., C.T. Beds.....		1 75	15 00
18 to 24 in., C.T. Beds.....		2 00	17 50
18 to 24 in., B&B.....	\$1 00		
2 to 3 ft., B&B.....	1 40		
3 to 4 ft., B&B.....	2 00		

L., Suwannee River. (Plant Patent No. 1402.) Beautiful Lucidum type Ligustrum, but much more compact and with slightly twisted foliage. It is more dwarf than Lucidum and is very desirable for foundation plantings and as individual specimens.

	Each	100
8 to 12 in., C.T.....		\$42 50
2 to 3 ft., B&B.....	\$2 00	
3 to 4 ft., B&B.....	2 50	

MAGNOLIA grandiflora. Bull Bay. Generally considered the South's finest evergreen tree.

	Each	10	100
6 to 8 in., S.T.....		\$1 25	\$10 00
8 to 12 in., S.T.....		1 50	12 50
12 to 18 in., S.T.....		1 75	15 00
18 to 24 in., B&B.....	\$1 60		
2 to 3 ft., B&B.....	2 00		
3 to 4 ft., B&B.....	3 00		

NANDINA domestica. Well-known red-berry-bearing plants. Our B&B plants have several canes, with berries early in season.

	Each
18 to 24 in., B&B.....	\$1 25

BROAD-LEAVED EVERGREENS, continued
OLEANDER, Cardinal. Very hardy.

	Each	10	100
6 to 8 in., 3-in. pots		\$1 50	\$12 50
8 to 12 in., 3-in. pots		1 75	15 00
18 to 24 in., B&B.....	\$1 25		
2 to 3 ft., B&B.....	1 65		
3 to 4 ft., B&B.....	2 10		

OSMANTHUS Fortunei. Tea-Olive. Hardy south of Washington, D. C. Beautiful holly-like leaves and fragrant white flowers in late fall. One of the best broad-leaved evergreens.

O. fragrans aurea. Yellow-flowering Sweet Olive. Similar to Sweet Olive, but a more profuse bloomer. Orange-colored flowers which are highly scented. Blooms only once in fall, however. Very new and rare plant.

Prices of both Osmanthus:

	10	100
6 to 8 in., C.T.....	\$1 50	\$12 50
8 to 12 in., C.T.....	1 75	15 00

PHOTINIA glabra. A very handsome, hardy, evergreen shrub which will grow to a height of about 15 feet. The new foliage is wine colored and is very attractive among other evergreens during the growing season. Should be clipped often to induce more new growth.

P. serrulata. Beautiful evergreen shrub with broad serrated leaves.

Prices of both Photinias:

	Each	10	100
6 to 8 in., C.T.....		\$1 50	\$12 50
8 to 12 in., C.T.....		1 75	15 00
12 to 18 in., C.T.....		2 00	17 50
18 to 24 in., B&B.....	\$1 10		
2 to 3 ft., B&B.....	1 50		

PITTOSPORUM Tobira. A splendid evergreen shrub with shiny dark green foliage. Can be pruned to any desired size or shape and does well in sun or shady places.

	10	100
6 to 8 in., C.T.....	\$1 00	\$8 50
8 to 12 in., C.T.....	1 25	10 00
12 to 18 in., C.T.....	1 50	12 50

PYRACANTHA coccinea Lalandi. Winter-berried plants are getting more popular all the time, and especially Pyracanthas. This variety is very hardy and safe south of Philadelphia. Orange-colored berries after August.

P. formosana. By far the showiest of all Pyracanthas, but is not very hardy, and unsafe north of Montgomery. Large clusters of bright red berries.

P. yunnanensis. Spreading type with coral-red berries. Quite hardy. Very popular.

Prices of all Pyracanthas:

	10	100
8 to 12 in., C.T.....	\$2 00	\$17 50
12 to 18 in., C.T.....	2 25	20 00

VIBURNUM macrophyllum. Small tree with large, very glossy leaves and clusters of white flowers. B&B only.

V. odoratissimum. Similar to above, with more rounded leaves of lighter color and not glossy. Looks much like English laurel and is a fast grower.

Prices of both Viburnums:

	Each	10	100
6 to 8 in., C.T.....		\$1 50	\$12 50
8 to 12 in., C.T.....		1 75	15 00
12 to 18 in., C.T.....		2 00	17 50
18 to 24 in., B&B.....	\$1 50		
2 to 3 ft., B&B.....	2 00		

CONIFERS

Abbreviations: S., Seedling; C., Cutting; T., Transplanted; B&B, Balled and Burlapped

ARBORVITAE (Thuja) orientalis aurea nana. The well-known Berckmann's Golden. One of the most satisfactory of the semi-dwarf conifers.

A. orientalis Bakeri. Perhaps the best liked of all of the taller growing varieties. Color good dark green and holds its shape well.

	Each	10	100
8 to 12 in., CT.....		\$1 75	\$15 00
12 to 18 in., B&B.....	\$0	85	
18 to 24 in., B&B.....	1	00	
2 to 3 ft., B&B.....	1	25	
3 to 4 ft., B&B.....	2	00	

JUNIPERUS sylvestris. One of the best conifers in the South, with light green leaves of both scale-like and smooth types. Can withstand city conditions and is very hardy.

J. chinensis Pfitzeriana. Our specimen Pfitzer Junipers are very shapely, spreading in four directions.

J. chinensis, Andorra. Fast-growing Pfitzer type Juniper, but more upright in habit.

J. chinensis Hetzi glauca. Rapid growing; blue foliage. Resembles Pfitzer in habit of growth.

J. communis. Column-type English Juniper of bluish hue, withstanding heat of southern sun and hardy in extreme North.

J. excelsa stricta. Spiny Greek Juniper. Symmetrical grower of conical outline.

Prices of above Junipers:

	Each	10	100
6 to 8 in., CT.....		\$1 60	\$12 50
8 to 12 in., CT.....		1 75	15 00
12 to 18 in., B&B.....	\$1	00	
18 to 24 in., B&B.....	1	40	
2 to 3 ft., B&B.....	1	80	

PODOCARPUS sinensis. Japanese Yew. One of the largest-leaved conifers with 2 to 3-inch leaves a half inch wide. Looks almost like a broad-leaved evergreen. Can be pruned to any desired shape and will do well in either sun or dark shade.

	Each	10	100
6 to 8 in., S.T.....		\$1 75	\$15 00
8 to 12 in., S.T.....		2 00	17 50
18 to 24 in., B&B.....	\$1	75	
2 to 2½ ft., B&B.....	2	25	

Juniperus Liners, 8 to 12 in.

DECIDUOUS PLANTS

LAGERSTRÆMIA indica. Crape-Myrtle.	Water-
melon-Red, Purple and Pink.	100
18 to 24 in., B.R.....	\$4 00 \$35 00
2 to 3 ft., B.R.....	5 00 45 00
3 to 4 ft., B.R.....	7 00 65 00
4 to 5 ft., B.R.....	10 00 90 00

MISCELLANEOUS PLANTS

LIRIOPE Muscari densiflora. Big Blue Liriope. Similar to Ophiopogon but with much broader and longer leaves (about 12 inches) and larger spikes of blue flowers. Excellent for edging and porch-plants.	10	100
Medium clumps.....	\$2 50	\$20 00
L. Muscari variegata. Variegated Big Blue Liriope. A variegated form of Densiflora, having leaves beautifully striped with creamy white. Pretty spikes of blue flowers in July and August make these very attractive as outdoor or potted plants.	10	100
Medium clumps.... Sold Out	\$2 50	\$20 00
OPHIPOGON japonicus. Dragon's-Beard. A very low, grass-like evergreen with spikes of purple flowers, doing well either in dark shade or in full sun. Very valuable as border plants and for ground-cover.	100	
Small division.....	\$5 00	
Large division.....	6 50	

CONTAINER-GROWN STOCK

Ready for immediate delivery

In recent years there has been a steady trend toward garden stores, both as separate units of nurseries and in department stores.

Container-grown plants are particularly adapted to this cash-and-carry trade, as well as serving the purpose of prolonging the season. Since there is no disturbance of the roots, they can be planted any time of the year as long as water is available.

We are growing well over one million container-grown plants per year in a good assortment, as you will find listed below. These are practically all grown in Plantainers, which are crimped tapered cans that knock out exactly as a clay pot, but due to the very light weight there is quite a saving in shipping cost. We will be very happy to quote rates to any point in truck-load lots. For example, in the one-gallon size we load 4200 to 4400 cans on a large tandem trailer, resulting in a very low cost per each for delivery. See page 30.

Gardenia	21		
Ilex	21,22		
Jasminum	23		

TRUCK-LOAD ORDERS

B&B and Container-Grown stock can be most economically moved in truck-load lots. If not convenient to send your own trucks, we can usually arrange for a suitable one from local reliable truckers. Costs of such trucks locally are as follows:

2-ton trucks, handling up to 5 tons at 25c per mile one way.

10-wheeler trucks, handling up to 10 tons at 30c per mile one way.

Tandem Axle Vans, handling up to 16 tons at 40c per mile one way.

To assist in making out a truck-load order, you can figure weights as follows:

Gallon Can Stock	7 lbs. each
2-Gallon Can Stock	14 lbs. each
3-Gallon Can Stock	35 lbs. each
5-Gallon Can Stock	60 lbs. each
4 to 6 in. Lath Grown Kurume Azaleas	3 lbs. each
6 to 8 in. Lath Grown Kurume Azaleas	5 lbs. each
8 to 10 in. Lath Grown Kurume Azaleas	7 lbs. each
10 to 12 in. Lath Grown Kurume Azaleas	10 lbs. each
12 to 18 in. Lath Grown Kurume Azaleas	15 lbs. each
10 to 12 in. Field Grown Indica Azaleas	12 lbs. each
12 to 18 in. Field Grown Indica Azaleas	20 lbs. each
18 to 24 in. Field Grown Indica Azaleas	30 lbs. each
24 to 30 in. Field Grown Indica Azaleas	35 lbs. each
2 to 3 ft. Field Grown Ornamental Magnolias	40 lbs. each
3 to 4 ft. Field Grown Ornamental Magnolias	50 lbs. each
18 to 24 in. Field Grown Sasanquas	40 lbs. each
2 to 3 ft. Field Grown Sasanquas	50 lbs. each
3 to 4 ft. Field Grown Sasanquas	60 lbs. each
18 to 24 in. General Ornamentals, Field Grown	40 lbs. each
24 to 30 in. General Ornamentals, Field Grown	50 lbs. each

These weights are approximate, as they will vary slightly according to moisture conditions.

Prices on all our B&B and Container-Grown stock are based on loading on trucks at our nurseries, without crating. We are unable to crate this type material because of the costs of packing.

Bare-Root and Potted Lining-Out Stock can be shipped economically by express or motor freight, and packing is charged additional at cost.

JUNIPERUS PFITZERIANA
